
Utility Service Emergencies

414.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for addressing Town utility service emergencies. This policy will address calls for service that are directed to the Police Department.

414.2 POLICY

It is the policy of the Easton Police Department to appropriately respond to Town emergency utility service requests received by this department.

414.3 UTILITY SERVICE EMERGENCY

A current contact list of Easton Utilities and Public Works personnel to be notified in the event of a utility service emergency should be available in Talbot Center.

414.3.1 WATER LINES

The Town's responsibility for water lines ends at the water meter; any break or malfunction in the water system from the water meter to a residence or business is the responsibility of the customer.

If a water line break occurs on the Town side of the water meter, Easton Utilities personnel should be notified as soon as practicable.

414.3.2 ELECTRICAL LINES

When an electrical power line poses a hazard, a member of this department should be dispatched to the reported location to protect against personal injury or property damage that might be caused by the power line. The fire department and Easton Utilities should be promptly notified, as appropriate.

414.3.3 RESERVOIRS, PUMPS, WELLS

In the event of flooding or equipment malfunctions involving Town reservoirs, pumps or wells, Easton Utilities should be contacted as soon as practicable.

414.3.4 NATURAL GAS LINES

All reports of a possible leak of natural gas or damage to a natural gas line shall promptly be referred to the fire department and Easton Utilities. A member of this department should be dispatched to the reported location if it appears that assistance such as traffic control or evacuation is needed.

414.3.5 TRAFFIC SIGNALS

A member of this department should be dispatched upon report of a damaged or malfunctioning traffic signal in order to protect against personal injury or property damage that might occur as the result of the damaged or malfunctioning signal. The member will advise Talbot Center of the problem with the traffic signal. The dispatcher should make the necessary notification to the appropriate traffic signal maintenance agency as soon as practicable.

Easton Police Department

Policy Manual

Utility Service Emergencies

A decision to place a signal on flash should include a consultation with the appropriate traffic signal maintenance agency, unless exigent circumstances exist.
